WORK HISTORY

Senior UI Developer

Media.net Software Services - Mumbai

6th August 2019 - 30th April 2021

My role at Media.net included: -

- Writing optimized code for several implementations using vanilla Javascript.
- Implementing marketing material like landing pages, post-install pages, and dashboards, using HTML, CSS, and JavaScript.
- Work on an internal dashboard tool (Datachimp) using ReactJS. Redux was used for state management, and the backend was built in SQL.
- Work on a project which was about Customer Acquisition Platform and my role was to add new features and improvements to an existing dashboard using Angular 6+. The backend was built in PHP + MySQL.

Web Developer

Accenture Solutions - Mumbai

1st October 2018 - 5th August 2019

My role at Accenture Solutions included: -

- Working with multiple stakeholders.
- Implementing and maintaining websites for Sanofi, a renowned pharmaceutical company using Sitecore.
- Technologies used were Sitecore, JQuery, HTML/LESS.

Jr. UI Developer

Media.net Software Services - Mumbai

9th May 2016 - 28th September 2018

My role at Media.net Software Services included: -

- Implemented various ad units like keyword ad blocks, interstitials, and SERPs(Search Engine Result Pages) providing cross-browser support.
- Implemented marketing material like landing and thank you pages and also implemented the product pages for Chrome, Firefox, Safari, and InternetExplorer extensions.
- The technologies used were HTML, CSS, and JavaScript
- Within my tenure at Media.net, I also worked on 2 personal projects to ease the daily work to some extent. I used JQuery for these projects.
